Epidemiology Bulletin No. 51 (ending March 3, 2019)
Infection Prevention / Clinical Epidemiology

As part of UC San Diego Health System’s ongoing commitment to provide the latest information to faculty and staff, this Epidemiology bulletin about influenza will be provided on a weekly basis once cases are seen.

ILI (Influenza Like Illness) is defined as temperature >100.4 AND one or more of the following: cough, sore throat, muscle aches.
